

Product Overview:

Merging comfort and convenience with exceptional audio performance, the LA-403 Universal Behind-the-Head Stereo Headphones from Listen Technologies are designed for listeners who wear hardhats (or just want to avoid “headphone hair”).

Compatible with the integrated neck loop/lanyard, the LA-403 can also be used with the included 3.5mm extension cable to conceal the receiver in a pocket during use. The dual-ear design helps to block external noises and allow for better audio performance, and the lightweight design makes them easy to wear for extended periods.

Durable, hard plastic construction makes them easy to clean and disinfect using a Listen Technologies disinfecting wipe (LA-901), and disposable foam cushions (LA-167) are available for quick, easy replacement.

Highlights:

- Dual-ear, behind-the-head design for comfortable wear and excellent sound quality
- Stereo audio with reduced interference from external noises
- Compatible with integrated neck loop/lanyard
- Durable, hard plastic construction is easy to clean
- Disposable foam ear cushions are available for easy replacement

Includes:

One (1) LA-403 Universal Behind-the-Head Stereo Headphones

One (1) LA-434 Earphone Extension Cable
