

Product Overview:

The LA-405 Universal Stereo Ear Buds offer the same outstanding sound quality and comfort as our single ear bud design, but with the added benefit of dual ear pieces for true stereo sound. Designed to sit just inside the ear, the universal design provides a comfortable fit for users with large or small ears.

The buds fit securely for hands-free use and freedom of movement, and can be used with our integrated neck loop/lanyard or connected to a receiver via the included 3.5mm extension cable for additional options.

The hard plastic construction is durable and easy to clean, and the ear buds can be disinfected using our disinfecting wipes (LA-901).

Disposable foam cushions (LA-163) are also available for a quick and easy replacement option, and the ear buds are compatible with all ListenRF iDSP receivers.

Highlights:

- Dual-ear design provides true stereo sound with reduced interference from external noises
- Universal design to fit large or small ears comfortably
- Compatible with neck loop/lanyard or can be used with receivers worn on belt clips or carried in a pocket
- Durable plastic construction for long life and easy cleaning or disinfecting
